

# EXPO Interview Prompts

This is a suggested list of questions to ask your child. You may choose to skip some questions, or add your own. This is just to help you get the conversation going.

1. How many times did you visit Expo?
2. Did you visit with your family, your school, or both?
3. If you went with school, which pavilions did you visit?
4. What was a really fun thing you did at Expo?
5. What was the yummiest thing you ate at Expo?
6. Did you get wet in the Waterfall? Tell me about it!
7. Which was your favourite pavilion? Why?
8. What did you love most about Expo?
9. How many people do you think visited Expo?
10. Did you go to Expo by car, or by metro? Did you ride the Expo bus?
11. Can you draw the big Expo gates?
12. Can you draw Opti, Terra and Alif?

Any handwritten answers and drawings should be on plain white paper and scanned in on a high resolution and uploaded to DropBox along with your photos. If scanning is not an option, then I can recommend a free app called CamScanner. Alternatively, you may take a regular photo.

In both CamScanner and photo cases, please ensure the paper is placed in natural light, and the photo taken from directly above, taking care not to allow any shadows to fall onto the page as this will affect clarity.

If you prefer, you can also drop off the paper to me and I can scan it in myself at no extra charge (I am based in DIP).

With typed answers, you may send them through by email to [boundinabook@gmail.com](mailto:boundinabook@gmail.com)
